## Paint a Smile

### Face paint with a brilliant new twist

Introducing a brand new way to apply face paint. One that's already making some of the biggest smiles we've ever seen. It's called the Snazaroo Brush Pen and it's a clever combination of paint and brush designed to bring ideas to life, wherever your imagination takes you.

The precision brush nib is designed to make it easy to get the biggest ideas or the smallest details just right, allowing full control over the amount of paint used. No water or separate brushes required. Simply pop the top, twist the base and let the fun flow... whenever, wherever.

Just a few turns and paint is delivered straight to the brush tip to help face painters create anything from robot tigers to frozen fairies, with no mixing or mess.

### Packed with inspiration

Snazaroo Brush Pens are available in five different packs, each containing the three 2ml colours used in the most popular face painting designs.

The **Monochrome Pack** comes complete with two black brush pens and a white one, the two most popular and versatile Snazaroo face paints.

Boldly grab the **Adventure Pack** with red, gold and blue and brush up on everything from pirates to superheroes.

When Halloween ghouls and ghosts are called for, it's frighteningly easy using the black, white and orange paints in the **Halloween Pack**.

Conjure up fairies, princesses and butterflies with purple, pink and silver in the **Fantasy Pack** that makes it easy to give every face the magic touch.

Or go wild with yellow, green and brown in the **Jungle Pack** and make fun furry faces fast with lions, tigers and cheetahs - but never any spills or splashes.

### Safe for every occasion

Available in 12 colours, the water-based paint is safe for virtually any application. Suitable for sensitive skin, it's both fragrance and paraben free. And when the fun's over, removing it is quick and easy with soap and warm water.

Snazaroo Brush Pens are set to change face painting with a clever new twist. No more separate water brushes and less chance of mess... just face painting with no limits anywhere from the supermarket to sleepovers, playgrounds to parties and more. Now there's nothing to stop the fun!
